Excellence.

Exciting news...we are ASME certified!
SMC can now meet your pressure vessel and power boiler needs.

Service and Manufacturing Corporation Receives Industry Accreditations

Service and Manufacturing Corporation (SMC), a wholly owned subsidiary of Service and Technology Corporation, was recently accredited and authorized by the American Society of Mechanical Engineers (ASME) to hold the “S” and “U” Stamps for the manufacture and assembly of power boilers and unfired pressure vessels. SMC also holds the “R” Stamp from the National Board of Boiler and Pressure Vessel Inspectors (NB) for repair of boilers and pressure vessels.

Any boiler or pressure vessel stamped with one of these stamps signifies strict compliance with all provisions of construction and repair as designated by the ASME and NB.

“We have always provided the highest quality of materials and workmanship to our customers,” commented Kumar Krishnan, company President. “These certifications, however, provide added credibility to our work and signal to our customers that we have taken extra steps to ensure the quality of our work.” Krishnan stated that the accreditation process was rigorous and took place over a six-month period of time.

SMC was established in 1993 and provides custom fabrication and manufacturing services, including complete mechanical and electrical systems such as chemical and gas processing plants.

Announcing Cast for Upcoming Shows

Theater Bartlesville is busy setting the stage for their upcoming production of “Steel Magnolias” which opens September 30. The six member, all-female cast has been chosen by show director Judy McGlasson and rehearsals are well under way.

The cast of local actors features La Donna Owen as “Annelle,” Joanie Elmore as “Truvy,” Linda Allen as “Clairee,” Vicki Cooper as “Shelby,” Kim Weaver as “M’Lynn” and Sue Grayson as “Ouiser.”

Theater Bartlesville’s reprisal performances will take place September 30, Oct. 1, 2, 7, 8, 9. There are Friday & Saturday evening performances at 8pm and Sunday matinees at 2pm. For tickets call 918-336-1900. Credit cards are now accepted.

Tomorrow begins today.

We’re defined by what we pass on to the next generation. That’s why ConocoPhillips is working to provide clean, efficient technology to turn coal into clean-burning fuel. Our process helps capture carbon and remove impurities that affect our air quality. And, because we believe we’re responsible for finding long-term solutions for future generations, ConocoPhillips is exploring new sources of secure, stable energy. So we can pass on what matters ... to the ones who matter most.
